WHITE GAIN SCREEN

The **NORTHVIEW HORIZON'S** specially formulated coating provides a uniquely smooth white surface that diffuses light uniformly. Its optical qualities include optimum image depth as well as sharpness. The highly durable finish ensures hassle free installation and years of high-quality image reproduction. With five gain ranges available, the screen complements a variety of projector systems including high-output laser projectors. The pearlescent coating increases the gain to reduce light output requirements while providing a generous viewing angle and accurate color rendering. This screen is **foldable** for easier transportation.
